

My Name Is:

***ANNIE**

I am a spayed blue & white pit bull \ mix. My friends at the shelter think I am about 3 years old. I came to the shelter on 8/18/2014.

Hi I'm Annie, I'm a friendly girl who needs training and a routine of daily activities. I did live with dogs in my past, but can be a little pushy while playing, and may need management when playing with other dogs. No kitties for me. Annie should go to a household with children ages teens and up since I do tend to guard my food.

M14-266642 8/18/2014 ALEE

WHEN I ARRIVED ON-SCNE, I WAS MET BY CHP, S/O TASK FORCE, AND CLOVRDALE PD WHO WERE SERVING A WARRANT ON THE PROPERTY.

A DETECTIVE SAID THERE WERE 9 DOGS ON THE PROPERTY IN DEPLORABLE CONDITIONS, 4 PITBULLS AND 5 CHIHUAHUAS IN A SHED.

I FIRST VIEWED THE CHIHUAHUAS THAT WERE LOCATED IN THE SHED. THE SHED WAS CONSTRUCTED OF WOOD, BUT THE DOOR WAS SEALED OFF FROM ENTERING THE BUILDING BY CHICKEN WIRE. I COULD SEE NO FOOD OR WATER. THERE WAS A MATTRESS THAT ALL THE DOGS WERE ON, WHICH WAS COMPLETELY COVERED IN URINE AND FECES. THE SMELL FECES, URINE AND AMMONIA WAS OVERWHELMING.

THE DETECTIVE THEN SHOWED ME THE 4 PITBULLS. THE DOGS WERE LOCATED IN THE BACKYARD OF THE REAR UNIT OF THE MAIN HOUSE. NO FOOD OR WATER WAS SEEN. THE BACKYARD WAS COMPLETELY COVERED IN GARBAGE, FECES AND DEBRIS.

I MET WITH THE DOG OWNER [REDACTED] WHO DID NOT SPEAK ANY ENGLISH. A MAN [REDACTED] TRANSLATED FOR ME. I ADVISED THE DOG OWNER THAT THE DOGS WERE IN TERRIBLE CONDITIONS. SHE SAID SHE KEEPS THE CHIHUAHUAS IN THE SHED BECAUSE OF WILD ANIMALS IN THE AREA. SHE STATED THAT SHE KNEW THE CONDITIONS WERE BAD AND SHE HAD NO EXCUSE. SHE STATED THAT HER 17 YEAR OLD SON OWNS THE 4 PITBULLS. I ADVISED HER THAT HE IS A MINOR AND ARE CONSIDERED HER PROPERTY. [REDACTED] EXPLAINED THE RELINQUISHMENT FORM. [REDACTED] AGREED TO RELINQUISH ALL 9 DOGS TO THE COUNTY AND SIGNED PAPERWORK. I GAVE HER A COPY AND ADVISED HER IF SHE CHANGES HER MIND SHE MAY CONTACT OUR DEPARTMENT. -513

M14-273789	25-Oct-2014	BEHAVIOR	On 10/21 I had annie out for a visit. She was aloof for the most part, when the people tried to interact with her she became very aroused and started jumping at them. I leashed her and tried to calm her down at that point she jumped up and grabed my arm forcefully with her mouth. did not break skin but there wer deep teeth wounds. I have pictures as I got very busy and there was no supervisor around to talk to at the time.
M14-277635	05-Dec-2014	BEHAVIOR	12/5/14- I have worked with Annie in and out of her kennel the last three days. -The first day she wanted to jump up, but working with her on an incompatible behavior (sitting) seems to be quickly curing this. -She hasnt shown any inclination to biting or mouthiness. I am using treats as well as affection to train her and this seems to be

			going well. She will work for either and hasnt been possessive of the treats. -She is very physical with her body, crashes into me when playing out in the yard, this is improving rapidly over only three days of work. but would be dangerous for children. -The first attempt at putting her back in her kennel she cowered and I had to drag her in, but rewarded her promptly. She made no attempt to rush back out. By day three, Annie is walking eagerly into her kennel ahead of me so I do not even have to enter the kennel myself to return her.
